Dear Hiring Manager

I hope this email finds you well. I am writing to express my interest in any entry-level positions, such as internships, engineer trainee, or graduate trainee roles, that may be available within your organization. I am a recent graduate with a Bachelor of Engineering in Computer and Telecommunications Engineering from the Botswana International University of Science and Technology, complemented by practical experience and certifications in network support and security.

During my internship at Botswana Telecommunications Corporation, I gained hands-on experience in network migration, AI-driven solutions, and telecommunications systems. I also hold a Cisco certification in Network Support and Security, which has further equipped me with technical skills in troubleshooting, diagnostics, and remote user support.

I am highly adaptable, a quick learner, and eager to apply my knowledge in a professional setting where I can contribute to innovative projects and further develop my skills. I am particularly interested in opportunities where I can continue growing in the fields of telecommunications, embedded systems, or network engineering.

Please find my CV attached for your review. I would welcome the opportunity to discuss how my background, skills, and enthusiasm could be a good fit for your team. Thank you for considering my application.

Best regards,

Loeto Letty Setsile
